TRINITY TALK

»» A NOTE FROM OUR EXECUTIVE DIRECTOR:

Dear Trinity families,

Please take the time to read this entire one page letter. We are absolutely devastated by the damage to Western North Carolina by Hurricane Helene. Our prayers and deepest condolences are with all of the victims of Hurricane Helene. We feel lucky to even be in a position to help the people affected by this tragedy. We plan to do our best for our beloved North Carolina neighbors. We are going to lay out or plans below.

We have decided to host a 3v3 tournament in Apex, NC at Pleasant Park field 1 (turf stadium field) on Saturday November 23. A portion of the proceeds of this Tournament will be sent to Western NC. Furthermore, we will hold a supply drive at the Tournament. Please bring anything you want to donate to our neighbors in Western NC to the Tournament. The tournament roster size is 4 to 6 players. Please join us for this new and exciting event!

Winter League has been a cornerstone of our success at Trinity Soccer Academy, a soccer player can begin to lose physical and technical skills if they do not play soccer for only a few weeks. We developed our Winter program eight years ago to keep all of our players from losing the developmental gains that they had achieved in the Fall season. When the program started it was a 3v3 program, we later turned it into a futsal program and we feel that the technical development, ball manipulation, extra touches, navigating tight spaces and presence of Goalkeepers in Futsal and our approach to one practice per week and a game on the weekend to work on topics in the week and then implement them in game scenarios on the weekend has made the program a huge success for the quality of our players. Our program currently has 135+ players registered. Please consider registering for this incredibly important program, if you have not already! Registration is on Playmetrics. Players who signed up for year-round were automatically registered.

Trinity is aware of the Capelli issues. We have spoken to our Capelli representative. We have been told by Capelli that everyone will be able to expect order fulfillment by mid-October. We have conveyed our disappointment in this situation on behalf of our clients both from the perspective of the uniforms being delivered late, and the lack of communication from Capelli both directly to our clients and to us so that we can properly share information with all of you. We will be in communication with all of you immediately when we find out more.

Thank you for being the best part of Trinity!

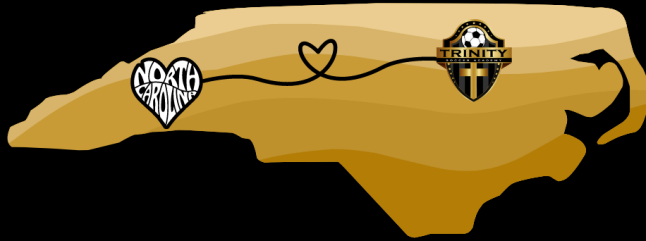

Sean O'Connor
Executive Director
